AUTOMATE YOUR WAREHOUSE WITH BARCODE DATA COLLECTION SOFTWARE

RFgen Mobile Foundations for SAP Business One

RFgen.

SAP® Business One

REDUCE COST | MAXIMIZE PRODUCTIVITY | IMPROVE ACCURACY | INCREASE EFFICIENCY

INVENTORY MANAGEMENT. FAST. ACCURATE. EFFICIENT.

RFgen Mobile Foundations for SAP Business One provides an SAP-certified suite of wireless barcoding and mobile applications for inventory management, purchase order processing, and sales order processing that supports real-time communication with your SAP Business One system.

GO PAPERLESS

Get rid of costly, error-prone manual, paper-based processes with barcoding and RFgen mobile applications that enable instant, reliable updates to your SAP Business One system.

INCREASE WORKER PRODUCTIVITY

Streamline operational processes like picking, packing, receiving and transfers to be more efficient and intuitive on a mobile or barcode scanning device.

MOBILIZE REMOTE/FIELD OPERATIONS

RFgen supports wireless and offline mobile data collection. Collect data in the field, then automatically update SAP Business One when reconnected.

"RFgen is easy to use, easy to implement and the cost is reasonable. I think those are the three most important things to know about RFgen."

~ JOEL SENA | JBT CORPORATION

PEACE OF MIND WITH CERTIFIED INTEGRATION WITH SAP BUSINESS ONE

Whether you want to implement wireless barcode scanning, support off-network workflows or automate your warehouse operations, RFgen Mobile Foundations for SAP Business One barcode software delivers:

- **Certified Connectivity**—The integration between RFgen and SAP Business One uses the DI SDK and is certified by SAP.

- **Zero Footprint**—Unlike other add-ons, RFgen does not install on your SAP Business One server or modify your ERP environment, so there's no hassle or added cost when it comes time to upgrade SAP Business One.

- **Seamless Integration**—All RFgen pre-built mobile applications, or any new applications you develop, automatically use the certified integration for real-time (or offline batch) updates to your SAP Business One system.

GET A HEAD START WITH PRE-BUILT MOBILE APPS

RFgen Mobile Foundations for SAP Business One provides you with a suite of pre-built mobile applications that seamlessly integrate with SAP Business One to handle the most common inventory management workflows.
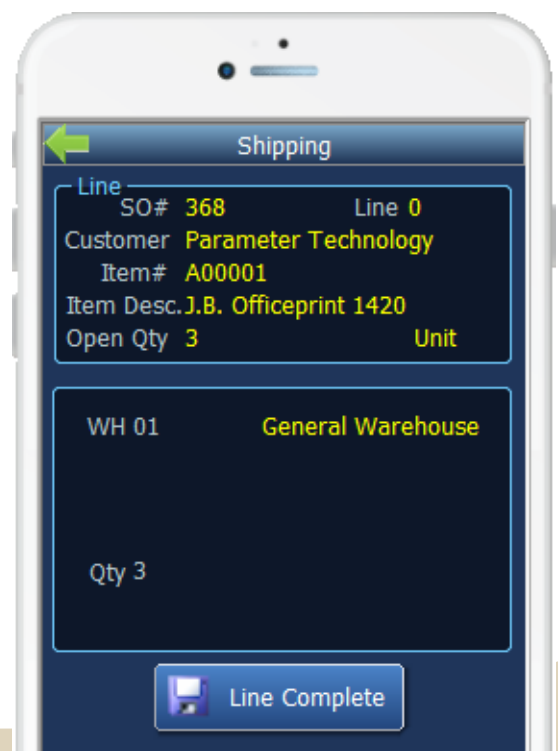

Different from a rigid warehouse management system (WMS), mobile applications can be customized, tested and rolled out in phases, one transaction at a time, allowing you to control the impact to your business.

MOBILE APPLICATION CUSTOMIZATION THE EASY WAY

When you purchase RFgen, you receive the source code for the pre-built suite of mobile applications. You can request RFgen Professional Services or use the RFgen Mobile Development Studio yourself to modify or create mobile applications using a drag-n-drop interface; developers get a .NET based development environment for code-level control. Applications are written once and can be deployed across multiple device platforms, including Windows Mobile, Windows CE, Apple iOS and Android.

PRE-BUILT MOBILE APPS

- Inventory Transfers
- Cycle Counting
- Sales Orders
- Packing
- Shipping
- Purchase Orders
- And More

- Web Services

RFGEN SOFTWARE—YOUR TOTAL SOLUTION PROVIDER

RFgen Software helps organizations reduce supply chain implementation costs and increase accuracy and efficiency with the industry's most reliable, flexible mobile data collection and barcode software solutions. In business since 1983, RFgen is known in the supply chain industry for its solid, high-quality products and high customer satisfaction ratings. With a global reach and local touch, RFgen and its global network of certified solution partners can support your organization anywhere in the world. Not only does RFgen provide robust mobile supply chain software, we also offer a complete end-to-end mobile data collection solution, including:

Mobile device hardware for your data collection needs

As your one-stop-shop, RFgen can provide you with the mobile device hardware you need to automate your warehouse. RFgen is a certified reseller of mobile computing devices for all major hardware brands. By working with RFgen for both your hardware and software needs, you are guaranteed a holistic, comprehensive approach to your entire data collection solution.

Professional consulting help for a smooth implementation

The RFgen Professional Services team is here to help you customize and implement your new RFgen system. Our expertise covers data collection technologies, popular ERP systems, and supply chain automation best practices—a trifecta of skills necessary for the successful planning, development and deployment of your data collection solution.

Education to help you maximize your investment

RFgen offers a variety of training delivery options including classroom and e-learning options. Training is conducted by the same professional services consultants and supply chain experts that design and develop solutions for our customers.
