

AUTOMATE YOUR
SUPPLY CHAIN
WITH MOBILE DATA
COLLECTION SOFTWARE

RFgen Mobile Foundations for SAP

REDUCE COST | MAXIMIZE PRODUCTIVITY | IMPROVE ACCURACY | INCREASE EFFICIENCY

SUPPLY CHAIN MANAGEMENT. FAST. ACCURATE. EFFICIENT.

RFgen Mobile Foundations for SAP is a suite of pre-written, SAP-certified data collection solutions that feature real-time, bi-directional information exchange with your SAP system. RFgen's SAP enterprise mobility software supports real-time voice integration, wireless barcoding, and mobile applications. Automate warehouse management, supply chain management, inventory management, manufacturing and plant maintenance operations. This mobile data collection software solution is easily and quickly adapted to your company's unique workflows and can help you:

DRIVE EFFICIENCY

RFgen mobile applications help you automate transactions throughout your operations, so your employees can complete tasks more quickly and effectively.

INCREASE WORKER PRODUCTIVITY

Streamline operational processes and reduce errors when employees use mobile or barcode scanning devices to collect data.

MOBILIZE REMOTE/FIELD OPERATIONS

RFgen supports roaming, on-demand data collection, as well as fully disconnected operations. Collect data in the field or remote warehouses, then automatically update SAP when reconnected.

“RFgen offered a full suite of solutions that had at least fifty SAP-specific transactions straight out of the box that could be used without being connected to a network. Whenever drivers returned to wireless range, we could upload that information as if it had happened in real-time.”

PEACE OF MIND WITH CERTIFIED INTEGRATION TO SAP

Whether you want to implement wireless barcode scanning, support off-network workflows or automate your warehouse or manufacturing operations, RFgen Mobile Foundations for SAP delivers:

- **Certified connectivity**—RFgen integration is certified by SAP for versions 4.6c to 6.05 and SAP HANA.
- **Version independent**—RFgen does not install on your SAP server or modify your environment, so there's no hassle when it's time to upgrade SAP.
- **Flexible developer productivity tools**—The integrated development environment enables your internal IT staff to rapidly customize and create new workflows, saving you both time and money.
- **Easy to support**—RFgen administration tools enable your IT team to shadow users and see their screens in the console. You can also take control remotely and show users exactly how to perform a task.

FASTER RETURN ON INVESTMENT WITH PRE-BUILT MOBILE APPS

RFgen deploys rapidly (usually twice as quickly as other systems), is considerably less expensive to maintain and is easy to learn how to use, delivering a proven ROI while solving important business challenges. RFgen Mobile Foundations for SAP comes with a large selection of validated, ready-to-use mobile apps in the areas of:

-  **Warehouse Management**
Optimize the use of warehouse space, improve employee efficiency and provide better customer service by mobilizing inventory storage and handling. Conduct more efficient cycle counts, inventory transfers, pick confirmations, and more.
-  **Supply Chain Management**
Meet rising customer expectations, run increasingly complex supply networks, and achieve faster responsiveness. RFgen gives you the tools to optimize procurement, ensure smooth sales order processing and capture employee time.
-  **Manufacturing**
Boost efficiency, reduce cost and increase profitability in your manufacturing process. RFgen enables you to design, build, and deliver the highest quality products, in the timeliest manner, at the lowest possible cost.
-  **Plant Maintenance**
Maximize the value of your equipment and plant assets with a proactive maintenance approach, significantly reducing overall operating cost and boosting plant productivity.

THE RFGEN MOBILE DEVELOPMENT STUDIO

The RFgen Mobile Development Studio is an integrated mobile enterprise applications development environment that enables your in-house developers to rapidly design, test and deploy mobile applications.

When you purchase RFgen, you receive the source code for the pre-built suite of mobile applications. Request RFgen Professional Services or use the RFgen Mobile Development Studio internally to modify or create mobile applications using a drag-n-drop interface; developers get a .NET based development environment for code-level control.

RFgen mobile themes give your developers significant control over how applications will look on end-devices, and depending on the end-device capabilities, RFgen fully supports most standard touch screen gestures.

DESIGN ONCE, DEPLOY ON ANY DEVICE

With RFgen, applications are written once and can be deployed across multiple mobile device platforms, including Windows Mobile, Windows CE, iOS and Android. RFgen can also extend connectivity from your SAP system to carousels, scales, Vocollect voice devices, wearables, telenet devices, machine-to-machine environments, and more.

SAP[®] Certified
Integration with SAP Applications

GAIN A COMPETITIVE ADVANTAGE WITH SUPPLY CHAIN ACCELERATORS

Supply chain professionals face strategic challenges, governmental and economic pressures, and a multitude of tactical issues every day. RFgen offers mobile solutions to address these challenges and help you optimize your supply chain operations.

Extend SAP into the field with RFgen Off-Network Mobility Solutions

Automate remote warehouses and field sales and service operations with support for roaming, occasionally-connected data collection using on-demand cellular/Wi-Fi connectivity to SAP. RFgen also supports fully disconnected scenarios where data is pre-loaded on the device, remote activities are locally validated, and transactions are exchanged with SAP at various intervals.

Set Your Workforce Free with RFgen-Vocollect Voice Solutions

Increase productivity by voice-enabling your warehouse with RFgen-Vocollect Voice Solutions for hands-free and eyes-free operations. The next advancement in warehouse automation, voice-directed technology can revolutionize your warehouse operations and provide you with dramatic improvements in speed, accuracy and safety.

Increase Manufacturing Visibility with RFgen Shop Floor Data Collection

Manufacturers are constantly looking for ways to trace materials and products through the supply chain, increase facility throughput, reduce cost and improve on-time shipments. RFgen's integrated shop floor data collection for SAP will help you achieve a real-time, accurate picture of inventory as it moves through your manufacturing process. Avoid stock-outs and minimize your material carrying costs while achieving end-to-end traceability, enforcing quality controls and meeting demands for shorter lead times.

SUPPORTED TECHNOLOGIES

Data Collection

- Android Devices
- Barcode Scanners
- Carousels and Scales
- iOS Devices
- RFID
- Tablets and Smartphones
- Telnet
- Vehicle Mount Computers
- Voice Recognition
- Windows Mobile and CE

Enterprise Integrations

- SAP
- SAP Business One
- Oracle's JD Edwards
- Oracle E-Business Suite
- Deltek Costpoint

General Connectivity

- COM Interop
- Databases
- IBM AS/400
- IBM Mainframes
- NET Assemblies
- UNIX Systems
- Web Services

RFGEN SOFTWARE—YOUR TOTAL SOLUTION PROVIDER

RFgen Software helps organizations reduce supply chain implementation costs and increase accuracy and efficiency with the industry's most reliable, flexible mobile data collection and barcode software solutions. In business since 1983, RFgen is known in the supply chain industry for its solid, high-quality products and high customer satisfaction ratings. With a global reach and local touch, RFgen and its global network of certified solution partners can support your organization anywhere in the world. Not only does RFgen provide robust mobile supply chain software, we also offer a complete end-to-end mobile data collection solution, including:

Mobile device hardware for your data collection needs

As your one-stop-shop, RFgen can provide you with the mobile device hardware you need to automate your warehouse. RFgen is a certified reseller of mobile computing devices for all major hardware brands. By working with RFgen for both your hardware and software needs, you are guaranteed a holistic, comprehensive approach to your entire data collection solution.

Professional consulting help for a smooth implementation

The RFgen Professional Services team is here to help you customize and implement your new RFgen system. Our expertise covers data collection technologies, popular ERP systems, and supply chain automation best practices—a trifecta of skills necessary for the successful planning, development and deployment of your data collection solution.

Education to help you maximize your investment

RFgen offers a variety of training delivery options including classroom and e-learning options. Training is conducted by the same professional services consultants and supply chain experts that design and develop solutions for our customers.
